INFORMATION TECHNOLOGY IN AGE CARE

Australian Aged Care Awards
Best product for ensuring
consumer independence

Providing the capability for aged care clients to live longer and live better.

Your clients will be connected to the outside world, enjoy their newfound independence and improve their lifestyle.

Care Cohort™ is a software program, developed for tablet use, that brings together all the information, medical records, health alerts, entertainment and social connectivity needs in an easy-to-use and easy-to-access format for aged care clients.

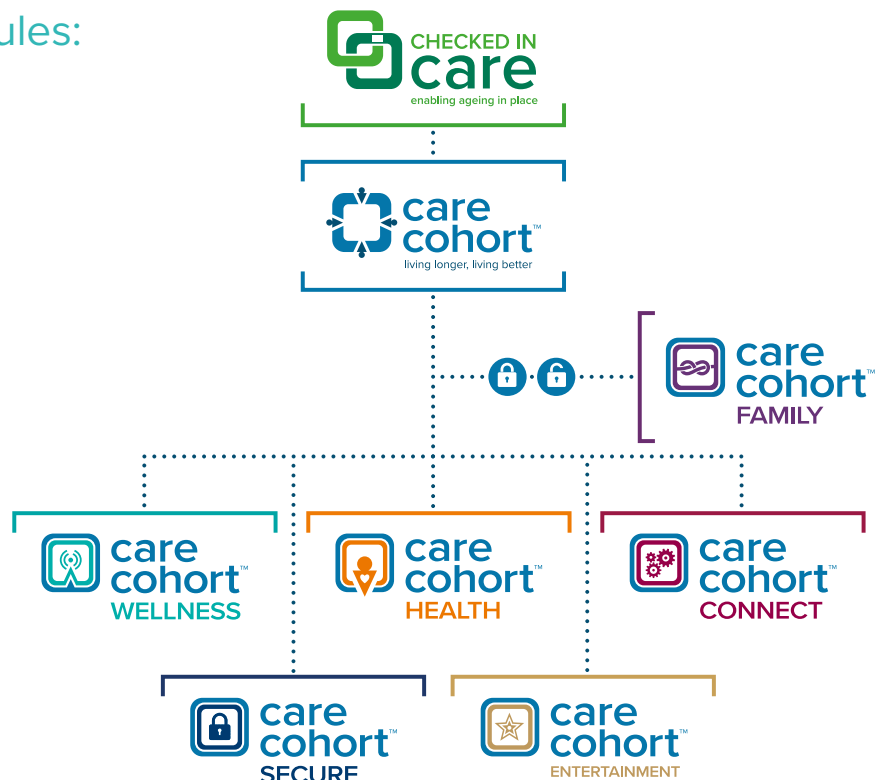

A family of products that provide flexibility, support client customisation and deliver services and experiences that enhances the quality of life for aged care clients.

Care Cohort™ Modules:

Checked In Care is a leader in the innovative use of technology that enables Aged Care providers to achieve higher revenues and efficiencies.

Care Cohort™ is our flagship product.

The Care Cohort™ solution provides peace of mind to the cohort of people who care for an aged care client, including care staff, family and friends.

Care Cohort™ Family
HELPING LOVED ONES STAY CONNECTED

- Allows approved family members and care providers to access important medical, financial and health data/information that is relevant to the enhanced care of the aged care client.

Care Cohort™ Wellness and Care Cohort™ Health
HELPING YOU LIVE LONGER

- Take control of your aged care client's health through wireless biometric devices to alert you when changes occur in weight, blood pressure, glucose or oxygenation levels.
- Ensure family and carers know their loved ones are safe, through a range of passive motion and door sensors placed throughout the home that send alerts when help is required.
- Continuous monitoring by wearable devices such as emergency pendants, fit bits, smart watches that allow drastic changes to send immediate alerts.
- Health information to keep everyone up-to-date on the daily activities to maximise their wellbeing.
- Health concierge services, such as, GP, physio, health mentor and experts - available at the touch of a button.

Care Cohort™ Connect and Care Cohort™ Entertainment HELPING YOU LIVE BETTER

- The Care Cohort™ simple layout and easy-to-use format makes it perfect for even the most technophobic clients.
- We provide 6-star hotel-type services to your residents and clients.
- A private digital butler and concierge service, to provide room service orders, cleaning and maintenance services, laundry and other services within requested time frames.
- Hilton Hotel-grade movies on demand available, providing the latest cinema experience.
- Social connections and video calling to family, friends, health professionals and care staff.
- Social games, such as bingo, scrabble, art groups, reading groups, that interconnect clients and residents across your range of facilities and operations.
- Increase activities and social interaction through a common schedule and calendar. Provide an overview of care visits, activities and excursions, as well as broadcasts and advertising.

Improving revenue and efficiency

- Enable your residents and clients to obtain information and knowledge remotely, including:
- Medication reminders
- Health information
- Telehealth video sessions
- Third party products and services from local providers
- Budget and invoice information and approval for payment options

Keeps your clients connected

- With Care Cohort[™] no matter where your clients live, they can stay connected with their family, friends and care staff.
- The Care Cohort[™] easy-to-use touch screen allows first-time users to enjoy the benefits of becoming connected immediately.

Improving your client's lifestyle

Bringing services to your fingertips that you would normally only be able to enjoy at a first-class hotel. We also provide online surveys to ensure we receive regular feedback to improve your services.

Increase your client's independence

- Your clients will be in control of their day and have access to the full range of activities and care options that are available from you, their care provider.
