

## An enhanced telecare services platform

Care Cohort™ Wellness offers seamless indoor and outdoor health monitoring combined with an emergency alarm system, allowing independent lifestyle for seniors and peace of mind for their loved ones.

Independent living solution for seniors that allows full confidence and peace of mind for their loved ones.

Care Cohort™ Wellness allows service providers the flexibility to offer their customers services ranging from emergency alerting to a professional intelligent home care solution, that constantly learns and adapts to the daily behaviour of individuals and provides alerts with different severity levels, based on deviations from their daily routine.

### Care Cohort™ Wellness PLATFORM

- A platform for business growth
- A variety of services for elderly home care
- Flexible go-to market
- Modular, easily scalable and upgradeable
- Brings intelligence to home care

# Improve your business performance

## Lead the competition

Gain a competitive edge thanks to a differentiated innovative offering in a field more relevant than ever.

## Reduce costs and improve staff management

Early alerts allow intervention before an emergency situation, avoiding unnecessary costly treatments. Moreover, better allocate your personnel thanks to a reduced uncertainty element.

## Increase customer loyalty

Care Cohort Wellness offers a superb user experience and improved health service offer to reduce churn and increase customer satisfaction.

## Care Cohort™ Wellness Comprehensive Offerings

Modular, flexible and personalised to your needs.
